## LOVE YOUR LIVER AND LIVE LONGER

### WITH JUST ONE FREE TEST Liver Function Test (LFT)

The liver is the largest and main organ of the human body and it does important functions like detoxification, digestion of fats, glucose storage, etc. Because of lifestyle changes, there is a lot on the liver and people are experiencing fatty liver disorders and liver cancers.

The irony is liver doesn't show symptoms even if it is damaged up to 90%. To keep people in good stead, we are offering a complimentary Liver Function Test for all of your employees worth Rs. 500/-
